

## PLAISIR BRUT ROSÉ NV

VARIETY: Chardonnay (56%), Pinot Noir (44%)

WINE OF ORIGIN: Western Cape

ANALYSIS: ALC: 12.22% | RS: 7.0 g/l | PH: 3.09 | TA: 6.4g/l

---

COLOUR: Pale blush pink.

BOUQUET: The fine persistent mousse displays aromas of pear, Granny Smith apples, citrus and light yeasty notes with a hint of a red berry character.

TASTE: A foamy mouth-feel with delicate toasty notes. The Chardonnay imparts citrus, stone fruit and tropical nuances whilst the Pinot Noir provides notes of sweet glazed red cherries. It has a long, lingering, crisp, fresh finish.

FOOD PAIRING: Salmon confit or grilled lobster tail with lemon and tarragon butter sauce.

---

IN THE VINEYARD: The diversity of soils, slopes and elevations is closely linked with the quality of Plaisir Wine Estate wines. Well-drained weathered granite soils (predominantly Tukulu and Hutton) with good water retention allow for minimal irrigation and most vineyards dry land. The Chardonnay grapes were selected from a single 20-year-old vineyard at Plaisir situated 325m above sea level on the south-eastern slopes of the Simonsberg. The Pinot Noir grapes were sourced from two different 17-year-old trellised vineyards in Stellenbosch, one on the north-eastern slopes of the Helderberg and the other on the southern slopes of the Stellenbosch Mountains.

IN THE CELLAR: This elegant and distinctive Cap Classique is made in the classic French tradition from two noble varietals, Chardonnay and Pinot Noir. It is a blend of 56% Chardonnay which gives a clean flintiness and green apple flavours, and 44% Pinot Noir which imparts distinctive body, flavour and maturity. The grapes were hand-picked and the Chardonnay grapes harvested at 19.6 - 21.4° Balling whilst the Pinot Noir grapes were harvested at 20.7° Balling. After whole bunch pressing juice was left to settle before it was pumped into steel tanks for cold fermentation. After the first fermentation, the wine was prepared for secondary fermentation in the bottle. The wine was left on the lees for approximately 24-36 months before the sediment was removed in the traditional process of remuage and disgorgement.

AGEING POTENTIAL: This timeless Cap Classique with elegance and complexity is ready to drink now but will develop with age.
